

## **Extra Corporal Devices**

1. Development of weft-knitted and braided polypropylene stents for arterial implant  
A.F.D.P. Freitas (2010)  
Journal of Textile Institute, Vol: 101:12 December P.No: 1027-1034
2. Textiles for extra corporal devices  
Chaudray S.N & Borkar S.P (2009)  
Indian Textile Journal, 119 No.4, P.No 79-84

## **Developments in Medical Textile Field**

1. Skin care textiles- A Review  
R.Rakshit (2011)  
Manmade Textiles In India, March P.No 81-85
2. Antibacterial Rayon fibre  
B.B.Koutu (2011)  
Manmade Textiles In India, March P.No 101-103
3. Textile nano fibres for drug delivery  
R Rathinamoorthy (2010)  
Textile Asia, April P.No 29
4. Ayurvedic Textiles: A wonderful approach to handle health disorders  
Dr. Minakshi Jain (2010)  
Vol: 57 (10) Oct P.No: 45-52
5. Innovative textiles for medical application  
Berndt E & Wulfharst B (2001)  
Textile Asia, May, P.No 26-27
6. New emerging textile for medical applications  
Mankodi, H.R., Chaudasma D.J. & Chaudhari S.B. (2001)  
Man Made Textiles in India, Vol 44/1, P.No 437-442
7. Recent developments in medical textile  
Khatwani P.A. & Desai K.S. (2002)  
Textile Asia, Vol 33/4, P.No 23-24
8. Developments in healthcare textile  
Rakshit A.K. & Hira M.A. (2000)  
Man Made Textiles in India, January, P.No 21-25
9. New medical textile world- Influence of smart materials  
Mondal S. (2006)  
Man Made Textiles in India, April, P.No 124-127

10. Potential of intelligent textiles of biomedical filed  
Hayavadana J., Vijajkumar H L., Raichurkar P.P & Vanitha M. V (2004)  
Asian Textile Journal, 13(2), P.No 93-98
11. Development in medical textiles  
Rakesh S Chauhan (2008)  
Textile Magazine, Vol 2/5 January, P.No 9-12
12. Recent advantages in medical textiles  
Doraisamy I & Chellamani K.P (2008)  
Asian Textile Journal, 17, No.12, December, P.No 49-54
13. Novel medical textiles  
Krishnapriya B (2009)  
Nonwoven & Technical Textiles, 2, No.1, January – March, P.No 30-32
14. Recent developments in medical textiles  
Shanmugasundaram O L (2007)  
Journal of Textile Association, 68, No.4, November-December P.No 193-197

#### **Nonwoven in Medical Textile Field**

1. Nonwovens in health care and hygiene  
K.P. Chellamani and R.S. Vignesh Balaji (2010)  
Asian Technical Textiles, July-September
2. Nonwoven fabric converters for special medical textiles  
International Textile Bulletin Nonwoven/Industrial Textiles,  
Vol 41(2), 1995, P.No 20-24
3. Nonwoven – The choice for the medical industry into the next millennium  
Walker I.V. (2001)  
Asian Textile Journal, 10/10, P.No 122-125
4. Spunlaced and airlaid nonwoven for medical textiles  
Watzl A. & Majekar AJ (2002)  
Asian Textile Journal, 11/10, P.No 53-58
5. Cotton core Nonwovens  
Asian Textile Journal, (2002), 11/6, P.No 23-24
6. Conversion of nonwoven rolls goods to hygiene and medical products  
MANTRA, (2006), Vol 2/7, P.No 45-50
7. Nonwoven in medical field  
Kunwar Vengateswara singh (2008)  
Textile Excellence, January, P.No 12
8. Nonwoven in medical field  
Textile Excellence, (2007), September, P.No 17

9. Nonwovens directly from granulate polymer for hygiene and filtrations  
International Textile Bulletin Nonwoven/Industrial Textiles, (2000), Vol 3, P.No 62
10. Cotton blend nonwoven fabrics for medical use  
Prescott B.A., Anand S.C., Richards A.F. & Halfpenny J.R. (2001)  
Textile Asia, January
11. Development of stable fibre nonwovens for tissue engineering  
International Textile Bulletin Nonwoven/Industrial Textiles, (2002), March, P.No 8
12. Properties of stable fibre nonwovens for tissue engineering  
International Textile Bulletin Nonwoven/Industrial Textiles, (2002), June, P.No 45
13. AP.Nolication of nonwoven  
Textile Trends, (1998), Vol 40(1)
14. Testing of nonwoven fabric  
MANTRA Bulletin, (2006), P.No 1-6
15. Nonwovens for medical textile  
Arvindhan A.K. (2005)  
Asian Textile Journal, 14(4), P.No 36-41

## **Bandages**

1. Compression stocking  
D.Gupta, R.Chattopadhyay and M.Bera (2011)  
Asian Textile Journal, January P.No 39
2. Internal pressure profiling of medical bandages  
A.Das, R. Alagirusamy , D. Goel and P. Garg (2010)  
Journal of Textile Institute, Vol 101(5), May P.No 481-487
3. Compression bandage  
Riddha das & Apurba das (2010)  
Asian Textile Journal, October P.No 49
4. Compression bandages – A new 3-D product puts on the pressure  
Kettenwirkpraxis (2004), P.No 16-18
5. Development of bandages using bamboo fibres  
Arindam Basu & Balasubramaniam K., (2008)  
Asian Textile Journal, June, P.No 74
6. Bandages for medical purposes  
Viju S. (2008)  
Asian Textile Journal, November, P.No 63-69

## Wound Dressings

1. Today's impose – Haemostatic wound dressing  
V. Parthasarathy (2011)  
Manmade Textiles In India, January P.No 10 -12
2. Na-diclofenac  $\beta$ -cyclodextrin inclusion complex on cotton wound dressing  
M. Montazer and E. B. Mehar (2010)  
Journal of Textile Institute, Vol 101(5), May P.No 373-379
3. Today's impose – Haemostatic wound dressing  
V.Parthasarathy (2011)  
Manmade Textiles In India, January P.No 10-12
4. Textile materials for wound care  
Y Le, Anand S .C. & Horrocks A. R (1997)  
Textile Asia, April, P.No 37-38
5. Recent developments in fibres and materials for wound management  
Indian Journal of Fibre and Textile research, (1997) Vol 22/4, P.No 337-347
6. Latest developments in wound management  
Agarwal A K, Amit Dayal & Naresh kumar (1999)  
Asian Textile Journal, Vol 8/5, P.No 113-116
7. Advanced wound dressings  
Yimin Qin (2001)  
Journal of Textile Institute, Vol 92/2, P.No 127-138
8. A new product for the wound healing process  
Kettenwirkpraxis, (2004), Vol 13, P.No 29
9. Alginates for ideal wound dressings  
Somasundram D (2004)  
The Textile Magazine, Vol 45/3, P.No 73-74
10. Alginates- An enhancing recitation for healing sore  
Somasundram D. (2004)  
Journal of Textile Association, Vol 65/1, P.No 21-23
11. Wound care  
Martin Dauner (1998)  
Textile Asia, October, P.No 46
12. Properties evaluation of Tencel/ Cotton nonwoven fabric coated chitosan for wound dressing  
Ching- Wen Lou and Ching & Wen Lin (2008)  
Textile Research Journal, Vol 78, P.No 248-253

13. Role of medical textiles in wound management  
Jitendra R Ajmeri, Chitra Ajmeri & Joshi N .B. (2003)  
Asian Textile Journal, 12(10), P.No 126-131
14. Super absorbent cellulosic fibres for wound management  
Textile Magazine, (2005), 32(1), P.No 12-14

### **Finishes for medical textile product**

1. Combined antimicrobial & absorptive finishing on cotton gauge fabric based on triclosan & fluorocarbon  
M.Parthiban (2010)  
Nonwoven and technical textiles, April-June P.No 16-19
2. Development of Indian acalyphya herbal antimicrobial finishing of garment for skin diseases  
V. Krishnaveni (2010)  
Nonwoven and technical textiles, April-June P.No 20
3. Development of eco-friendly antimicrobial finish on cotton using calendula officianalis (Marigold)  
Raj kumar (2010)  
Manmade Textiles In India, October P.No 373-376
4. Breathability of woven surgical gowns treated with nano finishes  
K.P.Chellamani (2011)  
Asian Textile Journal, February P.No 45
5. Antimicrobial finish on cotton fabric using Aloe Vera  
V.Krishnaveni (2010)  
Textile Trends October P.No 41
6. Innovative multifinishing using Chitosan-O-PEG graft copolymer/citric acid aqueous system for preparation of medical textiles', (2010) 'Responses of 3-D biaxial spacer weft knitted composite circular plate under impact loading , Part 1 : Unit cell and elasto-plastic constitutive model  
Baozhong sun, Hong Hu and Bohong gu (2010)  
Journal of Textile Institute, Vol 101(1), Jan P.No 28-34., Vol 101(1) Jan P.No 76-90
7. Preparation of durable insect repellent cotton fabric through treatment with a finishing formulation containing cypermethrin  
Hebeish et al. (2010)  
Journal of Textile Institute, Vol 101 (7), July P.No 627-634
8. Antibacterial and physical properties of knitted cotton fabrics treated with antibacterial finishes  
Mustafa E. Ureyen et al., (2010)  
Vol 10.1, Jan – Feb P.No 48-54

9. Enhancing antimicrobial properties of dyed and finished cotton / Poly fabrics  
Nabil A. Ibrahim et al., (2010)  
Vol: 10:1 Jan-Feb P.No 55-63
10. Eco-friendly antimicrobial finish on cotton garment for skin diseases using kuppivaneni  
Ms V. Krishnaveni (2011)  
Vol: LVIII 6 June P.No: 78-82
11. Use of aloe vera for furnishing antimicrobial finish on cotton fabrics  
Avernita srivastava (2010)  
Journal of Textile Association, July-Aug P.No 68-72
12. Preparation and properties of PLLA/PLCL fibers for potential use as a monofilament suture  
S. Viju et al. (2010)  
Journal of Textile Institute, Vol 101 (9), Sep P.No 835-841
13. Antimicrobial finish A Review  
(2011)  
Indian Textile Journal, January P.No 69
14. Durable press and anti-microbial finishing of cotton fabric with a citric acid and chitosan treatment  
Young- Sik Chung, Kwang- keun Lee & Jin- Woo Kim (1998)  
Textile Research Journal, Vol 68/10, P.No 772-775
15. Antimicrobial finishes- the protector of microbial maladies  
Journal of Textile Association, (2000), Vol 61/3, P.No 117-123
16. Antimicrobial finishing  
Roshan S. Pai, Rajan V.R. & Roshan Paul (2004)  
Synthetic fibres, Vol 33/3, P.No 29-32
17. Anti-microbial finishes for textiles  
Melliand International, (2006), Vol 12/2, P.No 146
18. Antimicrobial finishes  
Colorage, (2007), Vol 54/9, May
19. Anti-microbial treatment  
Deepti Gupta & Somes Bhaumik (2007)  
Indian Journal of Fibre and Textile Research, Vol 32/2, P.No 254-263
20. Herbal anti-microbial finish on cotton fabric using Aloe vera  
Rajkumar G. & Krishnaveni V. (2007)  
Asian Textile Journal, Vol 16/2, P.No 76-78
21. Micro encapsulation of herbal products for microbial resistance in healthcare textiles  
Thilagavathi G., Krishnabala S. & Kannan T. (2007)  
Indian Journal of Fibre & Textile Research, Vol 32, September, P.No 351 – 354

22. Anti-microbial finishes  
Teli Arnas Aich MD. (2000)  
Journal of Textile Association, P.No 117-123
23. Anti-microbial finishes and modifications  
Deepti Gupta & Somes Bhaumik (2007)  
Melliand International, Vol 8 (5), P.No148-151

### **Biomedical Textiles**

1. Emerging biopolymer spider silk  
Ms.S.K.Vyas, A.L.Gulve and Ms.P.Sapkal (2011)  
Asian Textile Journal, February P.No 63
2. Biopolymers, a new aP.Noroach health care & medical applications  
Vandhana Sharma and Shahnaz Jahan (2011)  
Asian Textile Journal P.No 53
3. Complex biomedical materials for surgical implants  
Martin Dauner & Heinrich plank (1999)  
Textile Asia, Febraury, P.No 33-37
4. Biomaterials in medical applications  
Krishnabala S. & Thangeswaran P. (2005)  
Asian Textile Journal, Vol 14/6, P.No 57-61
5. Biomedical textiles  
Hayavadana J., Vijaykumar HL., Rarchurkar P.NO. & Vanitha M. (2004)  
Asian Textile Journal, Febraury, P.No 93-98
6. Polymer nanofiber in biomedical applications  
Viju S. (2008)  
Asian Textile Journal, May, P.No 37
7. Biomedical textiles- An overview  
Textile Trends, 2006, April, P.No 29-35
8. Biopolymers  
Vivek L Singh (2005)  
Asian Textile Journal, January-Febraury, P.No 65-68

### **Sutures**

1. Barbed-bi-directional sutures  
D.Veerabramanian (2010)  
Asian Textile Journal, August, P.No 73
2. Development in sutures & surgical gown materials  
Debi Prasad Gon (2010)  
Indian Textile Journal, October P.No 95

3. The historical development of sutures and some test methods evaluating their properties  
Man Made Textiles in India, (1998), Vol 41/6, P.No 267-269
4. Sutures -Evolutionary phases  
Asian Textile Journal, 1998, P.No 81-86
5. Seal PTFE: Minimizing suture hole bleeding  
Sathish Bhalero, Lauvekar G S. & Solanki Y.G. (2000)  
Asian Textile Journal, Vol 9/7, P.No 65-66
6. Investigating the knot performance of silk, polyamide, PET, Polypropylene sutures  
Karaca Bayraktar E. & Sengonul A. (2001)  
Textile Research Journal, Vol 71(5), P.No 435-440
7. Structure of knot performance of polyamide suture  
Hickenberger A S & Karaca Bayraktar E (2004)  
Indian Journal of Fibre and Textile research, 29(3), P.No 271-277
8. Biomedical implantable materials sutures  
Anita A Desai (2005)  
Asian Textile Journal, 14(3), P.No 54-56
9. Biomedical textile sutures  
Viju S, Brinda S & Karpagam P (2009)  
Asian Textile Journal, 18/2, P.No 45-49
10. Measuring the strength of knotted suture material  
Carr D J, Heward A G, Laing R M & Niven B E (2009)  
Journal of Textile Institute, January, P.No. 50-56

### **Polymers and Fibres Used in Medical Textile**

1. Innovative application of nano fibre  
(2009)  
Textile Asia, January
2. Antibacterial and absorbent acrylonitrile-vinylidene chloride copolymer fibers  
C. Chen, H. Zhang, XX. Zhang and X. C. Wang (2010)  
Journal of Textile Institute, Vol 101(2), Feb P.No 128-134
3. AP.Nolication for bio-degradable polymers  
S.T.Mhaske (2011)  
Asian Textile Journal, March P.No 68
4. Polymers and fibres in disposable medical product  
Amita Malik (2001)  
Asian Textile Journal, 10/1, P.No 36-40
5. Bio-degradable polyurethane urea fibres support natural healing process  
Textile Asia,(1998), Vol 29/11, P.No 52-54

6. Fibres in biotechnology  
Rekha V.D. (1998)  
Man Made Textiles in India, Vol 41/8, and P.No 337-340
7. Polyethylene polymers for hygiene market  
Katzner K. (2002)  
Asian Textile Journal, Vol 11/6, P.No 30-34
8. Multi component fiber technology for medical textiles  
Vijayarughavan N.N. & Karthick T. (2004)  
Synthetic fibres, Vol 33/1, P.No 5-8
9. Recent trends in silk protein in biomedical research  
Indian silk, (2005), Vol 43/11, P.No 5-7
10. A review of application of hollow fibre in extra corporeal devices  
Nemalal Tarafder & Pinaki Bose (2005)  
Man Made Textiles in India, Vol 48/4, P.No 141-144
11. Specialty fibres-III: Alginate fibres  
Manisha Mathur & Manisha A. Hira (2005)  
Man Made Textiles in India, August, P.No 294-299
12. Alginate fibres  
Indian Journal of Fibre and Textile Research, (2002), Vol 27(12), P.No 434
13. Polypropylene in high performance medical applications  
Asian Textile Journal, (2005), July, P.No 73
14. Lyocell tech: in the field of medical applications  
Asian Textile Journal, 2006, November, P.No 84
15. Health and comfort fibres  
Man Made Textiles in India, (2006), June, P.No 217-221
16. Super absorbent polymers  
Asian Textile Journal, (2007), May, P.No 72
17. Super absorbent polymers in textile- synthesis and application  
Divarekar RVA, Kanoongo NV & Sable AG (2007)  
Asian Textile Journal, June, P.No 31
18. Structured polymer nanofibres  
Asian Textile Journal, (2008), July, P.No 50
19. Polyethylene polymers for hygiene market  
Katzner K. (2002)  
Asian Textile Journal, June, P.No 30
20. The use of textile fibres in medical sector  
Usha Sayed, Pratap MR & Rane YN (2002)  
Asian Textile Journal, June, P.No 67

21. Bio-active fibres- Hygienic environment  
Macken (2003)  
Asian Textile Journal, Vol 12(5), P.No 51-55
22. Novel antimicrobial fibres  
Yimin Qin (2004)  
Textile Magazine, No 2, P.No 14
23. Chitin & chitosan fibres as wound dressing materials  
Yimin Qin (1994)  
Textile Horizons, Vol 14(6), P.No 19
24. Biodegradable polyesters for medical applications  
Viju S. (2008)  
Indian Textile Journal, June, P.No 75-79
25. Liquid retaining polymers – innovative stimulus for modern high - tech babies and nappies  
Non woven/ Industrial Textiles, 1/96, P.No 32-38
26. Absorbency & super absorbency  
Stan Davies (1998)  
Textile Horizons, February, P.No 18-19
27. Specialty medical fibres  
Shanmugasundaram O L & Sujatha K (2009)  
Nonwoven & Technical Textiles, 2, No.1, January – March, P.No 23-26
28. Polymers Fibres & Materials: An update  
Zins H M (2009)  
AATCC Reviews, 9, No.8, August, P.No 30-33
29. Pharmaceutical grade chitosan: An active component for medical textile  
Rahman S (2008)  
Asian Dyer, 5, No.1, February, P.No 41-42

### **Textiles in Tissue Engineering**

1. Electrospun nano fibrous scaffold material for tissue engineering  
Biswa Rajan Das (2010)  
Asian Textile Journal October P.No 61
2. Tissue engineering in textiles  
Hayavadana J. & Renuka D. (2006)  
Indian Textile Journal, January, vol 116/4
3. A geometric approach to fibrous structures for biological soft tissue replacement  
Penn L.S., Peter P. Gillis & Renee N.Lay (2001)  
Textile Research Journal, Vol 71/2, P.No 93-99

4. Properties of tissue engineering staple fibre nonwoven  
International Textile Bulletin Nonwoven/Industrial textiles, (2002), Vol 48/2,  
P.No 45-48
5. Textile scaffolds for tissue engineering  
Subramanian V., Poongodi G.R. & Veena sindhuja V. (2008)  
Asian Textile Journal, April, P.No 62
6. 3-D textile scaffolds for tissue engineering  
Frank K Ko & Laurencin CT. (2000)  
Textile Asia, May, P.No 27-30
7. Scaffolds for tissue engineering  
Singh M.K, Kumar P & Behera B K (2009)  
Asian Textile Journal, October, P.No 58-62

### **Testing of Medical Textile Product**

1. The Effect of pre-wetting on liquid penetration performance of surgical gown fabrics  
W.Cao (2011)  
Journal of Textile Institute, Vol 102:7 July P.No 604-611
2. Determination of anti microbial efficacy for textile products against odour causing  
bacteria  
Rachel H. Mc Queen et al., (2010)  
Vol 10: 4 July – August P.No 58-63
3. Testing antimicrobial performance  
Maria C. Thiry (2010)  
Vol 10.6 Nov- Dec P.No 26-36
4. Test methodology of liquid penetration of barrier materials  
Miller A. & Schwartz P (2000)  
Textile Research Journal, January, Vol 70/1, P.No 77-83
5. Surgical gowns and drapes product view and performance testing  
Guruprasad R. (2006)  
Man Made Textiles in India, October, P.No 336-340

### **Types of Textile Structures and Materials used in Medical Textile**

1. Investigating the production and properties of Ag/TiO<sub>2</sub>/P.NO antibacterial  
nanocomposite filament yarns  
R. Dastjerdi, M.R. M. Mojtahedi, A. M. Shoshtari and A. Khosroshahi (2010)  
Journal of Textile Institute, Vol 101(3), Mar P.No 204-213
2. A non-linear viscoelastic model for describing the fatigue behaviour of braided  
artificial ligaments  
S. E. Lmar zougui et al. (2010),  
Journal of Textile Institute, Vol 101 (9), Sep P.No 788-794

3. New 3D weaving concept for manufacture of medical textiles  
K.T.Sivagnanam (2010)  
Indian Textile Journal, February P.No 69-72
4. New test methods to evaluate the performance of dermatological braided sutures from both the doctor and patient sides  
F. Debbabi (2011)  
Journal of Textile Institute, Vol 102:6 June P.No 548-557
5. Textile structures for surgical implants  
Frank K Ko (1997)  
Textile Asia, June
6. The use of innovative textile structures for medical applications  
Bernet E., Wulfhorst B. & Aachen (2001)  
Asian Textile Journal, Vol 10/11, P.No 28-31
7. Textile materials in medicine & surgery  
Rigby A.R., Anand S.C. & Miraftab (1993)  
Textile Horizons, December, P.No 42
8. New emerging material for medical applications  
Mankodi H.R., Chusudama D.J. & Chaudn S.B. (2001)  
Man Made Textiles in India, November, P.No 437-442
9. Textile materials in implantable medical surgeries  
Somasundram D. & Kothari V.K. (2007)  
Indian Textile Journal, July, P.No 73

### **Baby diaper/Napkins**

1. Novel elastic baby nappy fastener systems  
International Textile Bulletin, Nonwoven/Industrial Textiles, (1996), Vol 42/4,  
P.No 32-34
2. Cotton for diapers  
Textile Asia, (2001), Vol 32/6, P.No 68
3. Baby diaper overview- marketing potential, raw material manufacturing and properties  
MANTRA, (2007), November, Vol 2/3
4. Changes in disposable diaper properties caused by wetting  
Hirko Yokura & Masko Niwa (2007)  
Textile Research Journal, P.No 135
5. Effect of abrasion and absorbed water on the handle of nonwoven for disposable diaper  
Kyung Hwa Hong Boo Changkim & Tae Jin Kang (2005)  
Textile Research Journal, Vol 75, P.No 544

6. Wet comfort of small disposable incontinence pads  
Textile Research Journal, (1998), 68 (7), P.No 479-488

### **Artificial Ligament**

1. Contribution to the optimization of artificial ligament mechanical properties  
Jedda H, Abdessalem S.B, Rangonbi M and Sakli F (2008)  
Journal of Textile Institute, 99, No.3, P.No 273-278

### **Artificial Heart Valve Prosthesis**

1. Textile heart valve prosthesis : The effect of fabric construction parameters on long term durability  
Heim F & Gupta B S (2009)  
Textile Research Journal, 79, No.11, July, P.No 1001-1013
2. Textile heart valve prosthesis : Manufacturing process & prototype performances  
Heim F, Durand B & Chakfe N (2008)  
Textile Research Journal, 78, No.12, December, P.No 1124-1131

### **Cardio Vascular Implant**

1. Optimization of textile parameters of plain woven vascular prostheses  
S. Moklutar et al., (2010)  
Journal of Textile Institute, Vol: 101: 12 Dec P.No 1095-1105
2. Blood flow in polyester textile vascular prosthesis experimental and numeric study  
Samir akashi, Nahil chafe & Saser ben abdessalem, (2001)  
Textile Research Journal, Vol 71/2, P.No 178
3. New concept of 3-D weaving of bifurcated vascular prostheses  
Indian Journal of Fibre and Textile Research, (2006), December, P.No 573-576
4. Numerical simulation of blood flow in a curved textile vascular prosthesis  
Journal of Textile Institute, (2005), P.No 117-122
5. Mechanical behavior of a textile polyester vascular prostheses: theoretical & experiment study  
Saber Ben Absdessalem & Sofiene Mokhtur (2005)  
Textile Research Journal, Vol 75 (1), P.No 784-788
6. Small diameter blood vessels by weaving: Proto typing & Modelling  
Moghe A.K & Gupta B S (2008)  
Journal of Textile Institute, 99, No.5, P.No 467-477

## **Applications of Knitted Products in Medical Textiles**

1. Three dimensional knitted fabric for diabetes treatment (2011)  
Asian Textile Journal, February P.No 74
2. Assessment of vitamin-E finish on knitted fabrics  
V. Chandrasekaran (2010)  
Journal of Textile Association, Mar-Apr P.No 284-288
3. Spacer fabrics for medical applications  
Kettenwirkpraxis, (1998), 32/4, 51-56+ E 15-19
4. Implantation- Warp knitted  
Kettenwirkpraxis, 33/2, (1999), 58-60+ E23-25
5. Warp knitted biomaterials (2001)  
Melliand International, 7/3, P.No 226-227
6. Timesh Tc is revolutionizing medical technology  
Knitting technology, (2003), 25/3, P.No 22-23
7. Hernia is not so serious  
Kettenwirkpraxis, (2003), 36/3, P.No 19
8. Medication from 3-D plasters warp knitted spacer fabric as textile carriers  
Kettenwirkpraxis, (2004), Vol 13, P.No 30-32
9. Innovation in mesh for hernia repair  
Jagadale B B & Barkar S P. (2007)  
Asian Textile Journal, July, P.No 28-36
10. 3-D knitted spacer fabrics and their applications  
Kanagaraj & Anbumani, (2007)  
Melliand International, March, P.No 47-52
11. Development of polyester/glass knitted fabrics for medical applications  
Kumaravel S., Goobalakrishnan M., Nithayanandan R. & Thilak vadicherala (2006)  
Synthetic fibres, Vol 35/3, P.No 23-28
12. New types of human implantable knitted medical articles  
Dodu A, Popov. A. & Pop D. Popa & et al (1986)  
Man Made Textiles in India, February, P.No 72

## **Hygiene and Healthcare**

1. A study on the effect of herbally treated nonwoven textiles health care products  
T.Ramachandran (2010)  
Manmade Textiles In India, January P.No 15-18

2. Application of textiles in medical, hygiene and health care  
J.N.Chakraborty and K.Srinivasalu (2010)  
Asian Textile journal, December P.No 43
3. Textile materials for medical and health care applications  
Journal of Textile Institute (1997), Part-3, P.No 83-93
4. Hospital and dialysate textiles  
Dasaradan B. S. & Chandrasekara Bharathy S., (1993)  
Asian Textile Journal, December, P.No 40-47
5. Operating theatre  
Geoffrey Newton, (1994)  
Textile Horizons, March, P.No 40-41
6. Development in health care textiles  
Man Made Textiles in India, January, (2000), P.No 21-25
7. Textiles in health care and medical applications  
Rakshit A K., Mrs Hira M.A., Bhat S. & Mahale G. (2000)  
Man Made Textiles in India, April, P.No 185-189
8. Special textiles used for manufacturing health care and hygiene products  
Anita Desai (2003)  
The Textile Magazine, May, P.No 73-76
9. Contribution of textiles to medical and health care products and developing innovative medical devices  
Rajendran S. & Anand S .C. (2006)  
Indian Journal of Fibre and Textile Research, Vol. 31, P.No 215-229
10. Applications of textile materials and products in health care  
Textile Intelligence, (2001), Second quarter, P.No 25
11. Development of nursing care sheets of cellulosic nonwoven fabrics for aging society  
Enomae T., Asakawa Arot R. & Onase F (2006)  
Textile Research Journal, Vol. 76, P.No 41
12. Evaluating one bath process for imparting anti-microbial activity and repellency to nonwoven surgical gown fabrics  
Wei Hung & Karen K. Leonas (2000)  
Textile Research Journal, Vol. 70, P.No 774-782
13. Plasma and anti microbial treatment of nonwoven fabrics for surgical gowns  
Rajpreet K Virk & Gita N Ramaswamy (2004)  
Textile Research Journal, Vol. 74, P.No 1073-1084
14. Process of imparting antimicrobial activity to nonwoven surgical gown fabrics  
Textile Research Journal, (2000), Vol. 70, P.No 774-782

15. Effect of a dual function finish containing in antibiotic and flurochemical on the antimicrobial properties and blood repellency of surgical gown materials  
Textile Research Journal, (1997), Vol. 67(12), P.No 875-880
16. World of Surgical Textiles : Surgical mask  
Hayavadhana J & Vanitha M (2009)  
Asian Textile Journal, 18, No.12, December, P.No 33-35
17. Advanced textile materials in health care  
Chaudary S.N & Borkar S P (2009)  
Asian Textile Journal, 18/4, P.No 40-48
18. Surgical gowns & drapes – product view & performance  
Guru Prasad (2008)  
Manmade Textiles in India, 51/10, P.No 336-340
19. Waste cotton in hygiene product  
Adivarekar R V, Kanoongo N & Khuran N (2010)  
Asian Textile Journal, 19, No.2, February, P.No 39-41
20. Performance and properties of reusable surgical gowns in medical textiles  
Das S (2009)  
Asian Dyer, 6, No.2, April, P.No 46-50

### **Others**

1. Investigation of antibacterial and antifungal action of silver nano particles loaded copolymer grafted cotton fabric  
Pamila gupta (2009)  
Nonwoven and technical textiles, July-September P.No 11
2. Novel composite materials for personal protective equipment (PE)  
S.C.Anand (2009)  
Nonwoven and technical textiles, July-September P.No 17-22
3. Activated carbon fibres based on nonwoven precursors for application as protective mark  
M.Mathur (2010)  
Manmade Textiles In India, September P.No 321-324
4. Textiles in foot wear technology  
Gauri (2010)  
Manmade Textiles In India, October P.No 357-362
5. The next big idea  
(2010)  
Textile Month, February P.No 16-18
6. Multifunctional Nano-Zno  
Zhao jing, Deng hua and li haixia (2009)  
Textile Asia, January

7. Emerging markets in feminine hygiene  
(2011)  
Asian Technical Textiles, Vol 5(1), Jan-Mar P.No 48-49
8. The effect of raw material composition of cloths on selected physiological parameters of human organism  
(2010)  
Journal of Textile Institute, Vol 101(2), Feb P.No 154-164
9. Antibacterial properties of cotton fabric treated with silver nanoparticles  
S. Ghosh (2010)  
Journal of Textile Institute, Vol 101 (10), Oct P.No 917-924
10. Prescription for protection  
Maria C. Thiry (2010)  
Vol 10:1Jan-Feb P.No 30-36
11. Antimicrobial and mechanical activity of eupatorium dye on tencel and tencel viscose fabrics  
Dr. Jayalakshmi. I et al., (2011)  
Vol: LVIII (2), Feb P.No: 49-56
12. Micro-encapsulation in textiles  
S.M. Bairagdar et al., (2010)  
Vol: 57 (4) Apr P.No: 41-43
13. Edible colorants: Source and aP.Nolication  
Harsh Pandey (2010)  
Vol: 57(4) Apr P.No 44-53
14. Investigation of Usnic acid as an antimicrobial agent on textile substrates  
Subhash AP.Noidi et al., 2010  
Vol: LVII (11), Nov P.No 57-60
15. Functional Textiles –A Review  
N.Tarafder (2010)  
Manmade Textiles In India, November P.No 400-406
16. Largest in Europe, German Meditech market  
(2010)  
Asian Technical Textiles, October-December
17. Application of herbal extract for antimicrobial property  
R. V. Adivarekar (2010)  
Journal of Textile Association, Mar-Apr P.No 324-330
18. AMBS, polyester with antimicrobials  
(2010)  
Indian Textile Journal, November P.No 100

19. Herbal Textiles: Green business, Green Earth  
Deepak Kumar (2011)  
Vol: 58 (4) Apr P.No 54-60
20. Smart textiles in the fabric of the future  
Dr. Mahapatra (2010)  
Vol: 58 (3), Mar P.No: 58-65
21. Some applications of porphyrin based compounds  
N. Sekar (2011)  
Vol: 58 (3) Mar P.No 34-36
22. Diversity in textile applications  
Mary Jacos  
Indian Textile Journal, (1998), October, P.No 88-91
23. Textiles for medical use  
Murugesan Babu K. & Muralidhara J.S. (1995)  
Indian Textile Journal, July, P.No 34-41
24. Medical applications of activated carbon fabrics  
Gurudatt K., Mathur G.N. & Tripathi V.S. (1998)  
Man Made Textiles in India, Vol 41(2), and P.No 55-57
25. Medical textiles: A healthy prognosis  
Keran Shamash (1989)  
Textile Month, December, P.No 15-16
26. Heart valve replacement by textile prosthesis  
Lloyd D.W. & Singer C (2001)  
Textile Asia, October, P.No 16-22
27. Activated carbon fibres Part I: Introduction and applications  
Gurudatt K. (1998)  
Man Made Textiles in India, August, P.No 345-347
28. Medical field holds good scope for textiles  
Indian Textile Journal (2000), November, P.No 43
29. Sorption characteristics of activated carbon fabrics  
Gilbert N. Arons, Richard N. Macnair & Richard L. Erickson, (1973)  
Textile Research Journal, September, P.No 539
30. Medical textiles  
Sourash Ghosh (2000)  
Indian Textile Journal, March, P.No 10-14

31. Anatomial textiles- Surgical  
Dasaradan B.S., Chandrasekaran Bharathy S., Hayavadana J. & Shanmugam N.  
(1993)  
Asian Textile Journal, 1(8), June, P.No 26-33
32. Anatomial textiles- Cardio vascular  
Dasaradan B.S., Chandrasekaran Bharathy S., Hayavadana J. & Shanmugam N.  
(1993)  
Asian Textile Journal, 1(12), October, P.No54-58
33. Textile for delivering skin care drugs  
Anon (2008)  
Textile Asia, 39, No.8, August, P.No 78-79
34. Analysis of polymeric braided tubular structures for medical applications  
Yuksekkaya M.E & Adanur S (2009)  
Textile Research Journal, Vol. 79, January, P.No 99-109
35. Development and evaluation of dustless fabrics for medical applications  
Behera B K, Sadheesh Kumar V & Mishra R (2009)  
Journal of Textile Institute, 100, No.5, July, P.No 466-474
36. Compression garments  
Pal S (2009)  
Asian Textile Journal, 18, No.9, September, P.No 57-62
37. Technical textiles in medical applications  
Basu S K (2008)  
Indian Textile Journal, 119, No.3, P.No 91-95
